## CONSTRUCTION OF TWO COURTS

**PREMIER**  
SPORTS & LEISURE  
*#1 In Sports Surfacing*

**CLIENT:** Corinda State School  
**COMPLETED:** May 2020  
**SURFACE:** Hard Courts

Not only can we do one court at a time but try two tennis courts. We reconstructed two tennis courts and came back a month later and resurfaced the multipurpose court. Premier Sports and Leisure was able to give all three courts a new life. We even re-connected existing lights so the kids can train until all times of the night.

Painting the nets black makes the Aussie blue Laykold colour pop and makes the court stand out more.

The acrylic paint we use is the best as it is UV stabilized, over time it's not going to fade, slip resistant, the paint can be recoated, glare resistant and it has a cushioned system to help players when playing.

The team loved working on it as it was a great job and had fun while doing it. They loved how nice the colour turned out as well as the new fence that was installed.
