

HOWARD SMITH WHARVES

SYNTHETIC LEISURE AREA

PREMIER
SPORTS & LEISURE
#1 In Sports Surfacing

CLIENT: Howard Smith Wharves
DURATION: May 2020
SURFACE: Leisure Area

In 2020 we completed a huge project at the Howard Smith Wharves in Brisbane.

The team at Premier absolutely loved this job not only because there was a brewery shop next to the site, but the view was amazing.

We supplied and installed Premier Synthetic Leisure Turf and underneath that we had 15mm of shock absorbing pads. The team spread and groomed the turf with specially selected white-washed and kiln dried sand into the surface pile.

A year later the team still likes to visit the wharf to look how the turf is going, and to have a cheeky beer.

This site only took one week to complete but it is still one of the team's favourite jobs to this day.
