

Rosewood State High School

MULTIPURPOSE COURT CONSTRUCTION

PREMIER
SPORTS & LEISURE
#1 In Sports Surfacing

CLIENT: Rosewood State High School

COMPLETED: May 2020

SURFACE: Acrylic Hard Court

Letter to the Client

I am extremely proud of our teams and how this project has turned out. Brad and Mitch had a ball out on site, complete the earthworks and concreting works.

We then had another team out, to complete all the fencing works, using both the existing and new fencing, which looks fantastic.

Then once the concrete had cured, we had Brent and his team, to complete the surfacing and line marking works.

This site also worked out to be Brent's first site as team leader, and we are really impressed with the finish of the surfacing and line marking works. We are completing the finishing touches, installing the combination tennis and volleyball posts, and nets for both games. Also making sure that there are sleeve caps for all sleeves, and installing the new netball rings and ring nets, and court care and maintenance signs.

This was a fantastic project, that had our whole Premier Team involved, and that's what we all love and enjoy.

Thank you again, we look forward to working with you again in the future.

Kind Regards,
Premier Sports and Leisure
