

CLIENT: Valkyrie State School
COMPLETED: August 2019
SURFACE: Acrylic Hard Court

This little country school in Valkyrie decided it was time to turn their concrete area into a colourful surface for the students to enjoy.

The team at Premier Sports and Leisure loved this project as the kids showed the team how grateful they were to have the team making their play area look special.

This little multipurpose court was designed by our Premier office and was brought to life by our surfacing team. The kids still to this day are enjoying all the games, this custom design has to offer.

This multipurpose area includes 2 tic-tac-toes, an agility ladder, two handball courts, a hopscotch and a snakes and ladders game. All these were surfaced with both the standard and vibrant colours from Laykold.
