

Wally Tate

CRICKET PITCH SURFACING AND FENCING

PREMIER
SPORTS & LEISURE
#1 In Sports Surfacing

CLIENT: Wally Tate
COMPLETED: August 2021
SURFACE: Synthetic Grass

This year we completed a job alongside Epoca Constructions, for the new Cricket facility precinct at the Wally Tate Park in Runcorn.

The Premier Sports and Leisure team really enjoyed this project as they watched the site develop from absolutely nothing into a brand-new cricket facility, for both the public and a new cricket club, to take advantage of.

When Premier started at Wally Tate, Epoca had constructed the cricket pitches, and installed the chain wire fencing, ready for us to install the new nylon netting, and synthetic grass surface.

Together we completed 6 new practice pitches, and an oval pitch, for this project.
