

# DEEBING HEIGHTS STATE SCHOOL

## MULTIPURPOSE COURT CONSTRUCTION

**CLIENT:** Deebing Heights State School  
**DURATION:** January 2022 – March 2022  
**SURFACE:** Acrylic Hard Court

Deebing Heights State School was one of our best projects we completed in 2022.

This job was one of our all-time favourites as the court colours that were chosen really make the courts look so unique.

The sport line marking are Basketball, Netball and Tennis. We also included a reversible basketball/netball tower and tennis poles and net.

We completed this whole job in the span of three months. This included the earthworks, concrete, fencing, painting and natural turfing around the entire perimeter.

We even had the chance for the whole team to go on site to turf the perimeter ourselves.

Overall, this project turned out amazing and collaborating with the school to design and plan the whole project for it to become one of a kind.
