

IPSWICH NORTH STATE SCHOOL

MULTIPURPOSE COURT RECONSTRUCTION

CLIENT: Ipswich North State School
DURATION: December 2021 – April 2022
SURFACE: Acrylic Hard Court

Our team at Premier Sports and Leisure was engaged to help transform two old and unused asphalt courts, into a massive multipurpose area for the staff, students, and community of the Ipswich North State School.

The new multipurpose area includes a large variety of outdoor games, from Basketball and Netball for HPE lessons, to hopscotch, knots, and crosses, and an athletics track, for the little fun morning tea breaks. Along with nine handball courts, for lunchtime tournaments.

This project will be one to remember for the team at Premier Sports and Leisure, as all members were involved, either in the design, construction, or surface application, and is a project that we can all be proud of.
