

# PAT RAFTER ARENA

## TENNIS COURT RESURFACING

**CLIENT:** Pat Rafter Arena  
**DURATION:** October 2022  
**SURFACE:** Acrylic Hard Court

Premier Sports and Leisure had the pleasure of working with the teams at GreenSet and the Brisbane Tennis Centre, applying the new GreenSet Cushioned Acrylic System to the recently reconstruction Pat Rafter Arena.

The process of transforming the newly laid asphalt into a competition grade surface, ready for the next tournament, was a total of ten days.

With staff, players and social hits getting underway, once we completed the works the first person to play on the courts was Ash Barty

### Testimonial-

“The team at Pat Rafter Arena have recently worked with Premier Sports and Leisure on resurfacing our tennis courts at the Queensland Tennis Centre before our annual International Tennis Tournament. The team was very good at communication and adjusted their schedule to work overnights so that the heat wouldn’t affect the courts and so they would have the best results possible. The job was completed in a tight timeframe due to having the tournament go ahead only 2 days after the job was completed. Amazing job team”
