

# WOODRIDGE NORTH STATE SCHOOL

## MULTIPURPOSE COURT RECONSTRUCTION

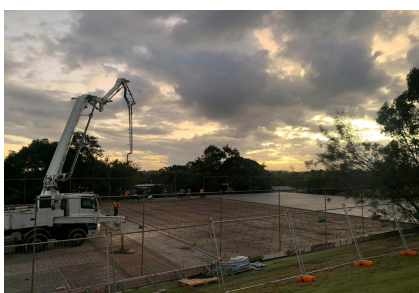

**CLIENT:** Woodridge North State School  
**DURATION:** June 2022  
**SURFACE:** Acrylic Hard Court

Premier Sports and Leisure complete a game changing project at Woodridge North State School. The school had the original asphalt courts from when the school first opened in 1972.

The team at Premier spent three months reconstructing the four courts to bring them back to life. We spent the duration of three months demolishing 2,475m<sup>2</sup> of the asphalt, pouring new concrete, applying the acrylic surface and installing the fencing and sports accessories.

The school decided to go with the colours Aussie Blue Inners and Dark Blue Outers. Both these court colours are one of our most popular combinations as they make the court look amazing.

This project was such a great job to watch transform from a 50 year old asphalt court to one of the best projects we have completed to date.
